RODGERS RENTS

While the main focus of our business is the design and sale of custom pipe and digital organs, we have noticed an increasing demand for organ music in settings where a permanent organ is not practical or possible.

As you can see by the growing list of clients in this brochure, our firm has become well-known for providing the finest temporary installations possible. We approach every temporary installation as if it were going to be there on a permanent basis. We have several concert organists on staff that follow the installation crew to make certain that the organ is properly voiced to the room and to your taste so

that your event will be perfect in every way. You are also provided with emergency contact information for any last minute questions that may arise.

Rodgers Console on stage for use by the Grant Park Symphony Orchestra & Chorus.

Rental of a 3-manual Organ (2 days)	\$1,700.00+
Delivery, Set Up, Voicing, etc. Pick up of Organ after the event	\$2,000.00+
Additional Charge for delivery or pick up on weekends, after hours, etc.	\$500.00+
Additional Cost for Organ Platform	\$600.00

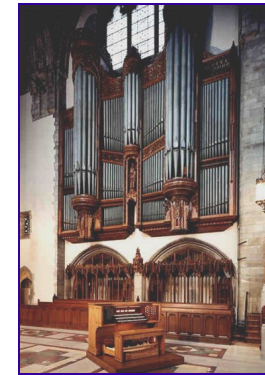

Rental Fees may be modified or waived in the event that the organization will provide ad space, program announcements, etc. In this case we charge off the amount waived to advertising.

ADDITIONAL INFORMATION:

Renters are expected to carry liability insurance for the value of the instrument being rented in the event of fire, damage, etc. We are insured for travel to and from your location.

The Rodgers Organ does have 1/4" stereo outputs that can make installations simpler in VERY large or outdoor situations. You may have your Audio Specialists contact us to discuss these matters. We have done this type of installation at Navy Pier, the United Center, the University of Illinois Pavilion, Notre Dame University, etc.

REVIEWS OF RODGERS RENTALS

Bravo!

This is a wonderful organ!

Chicago Tribune

John von Rhein,
Music Critic

“Both Weisflog and the church’s splendid pipe organ did the music justice.”

John von Rhein did not realize that Tom Weisflog was not playing the church’s pipe organ. Tom was playing an **All-Digital Rodgers Organ**. We are flattered by his glowing review of Rodgers Sound.
